

COVERED6

SAVIOR BALLISTIC SHIELD

EVERY LIFE DESERVES A SAVIOR

The Covered 6 MTS (Multi-Threat Shield) is a "purpose built" product. As a result of our clients needing a smaller, lighter more discreet option for response to crisis like Active Shooters, the C6 team developed the lightest, most versatile ballistic shield ever developed.

1 PROTECTION LEVEL

Ballistic Components

One-Piece (no gap) Laminated Kevlar® - Level IIIA

Optional Rifle Plate Insert

16" L X 9" H X .75" D
Dyneema - Level III

Blunt Force Inserts

11" x 17" x 0.16" Kydex® & 11" x 17" x .25" - Shock Pad

NIJ Level IIIA (Level III w/optional Rifle Plate Insert). MTS™ was tested by a National Institute of Justice approved laboratory for ballistic resistance in accordance with Modified/Abbreviated NIJ 0108.01, Threat Level IIIA. The results were "No Penetration," and therefore meets the requirements of Level IIIA.

BACK VIEW

2 SHIELD SIZE
